Description of Fellowship
Our fellowship is a one year fellowship following either a diagnostic pediatric radiology or adult IR fellowship/residency. There are three months of elective time for additional training in neuro IR, adult IR or diagnostic pediatric radiology. We perform a broad range of procedures in a very busy tertiary care hospital caring for local, regional and international patients. There are many multidisciplinary programs specializing in oncology, transplant and vascular anomalies. Our IR department has three state of the art dedicated IR suites and hybrid suite. We also have an animal research IR facility as part of our imaging research center.
