

The SPIR 8th International Meeting

October 21 - 23, 2020

La Jolla, California
United States

Shaping the
future of
Pediatric IR
together

Society for
Pediatric
Interventional
Radiology

EXHIBITOR PROSPECTUS

Following the unprecedented success of our Society's 2019 meeting in Amsterdam, where we hosted the largest gathering thus far of pediatric IRs from around the world, we are excited to be returning to North America in 2020 for what promises to be another excellent scientific congress.

We have put together one of our most diverse programs to date, giving both delegates and industry the opportunity to hear from highly respected international experts in pediatric IR, as well as other specialists working alongside us delivering world-class care for children. The meeting includes scientific sessions where the latest pediatric IR research will be presented, as well as hot topics, debates and pearls of wisdom from the experts. The meeting will include special interest sessions focusing on the specialties that surround and support IR, from whom we can learn so much, and on ways to build pediatric IR practice for the future.

For the first time, we are offering industry the opportunity to be directly involved in our program, delivering breakfast or lunchtime talks or hands-on sessions for delegates. Technical innovation and device development are key to the future of our specialty. We are passionate about working with our industry partners to drive debate, ideas and inventive solutions to the challenges of delivering minimally-invasive care for the smallest in our society.

A major part of our prior success has been outstanding corporate support for our educational programs. We hope you can join us in La Jolla so that we can shape the future of pediatric IR together.

SPIR President

About the SPIR

The Society for Pediatric Interventional Radiology is an international organisation dedicated to excellence in Pediatric Interventional Radiology. The Society unites experts from centres across the world and gives them a forum to discuss, debate and develop this specialty together. Our annual congress provides a platform for teams to share their expertise and learn how to apply the latest IR techniques in children. SPIR supports research initiatives in a number of regions, recognizing that in order to innovate and improve, we need to collaborate and learn from each other. SPIR has members from over 20 nations and actively seeks to support those who may be delivering PIR in relative isolation. We work with training schemes to attract emerging talent to our specialty and encourage Members-in-Training participation via our meetings and education programs.

SPIR works with other organizations such as SIR, SPR, ESPR, CIRSE, SIDI, ASPVIR and the Chinese SPIR to raise the profile and influence of pediatric IR. We also reach out to nations where PIR is not yet a reality, so that in time, every child in the world has access to minimally invasive, life-changing treatment.

The Venue

The **Hilton La Jolla Torrey Pines** is a 4 star hotel with extensive experience in delivering international scientific meetings. The SPIR congress will be centered in a well-appointed 120 seat classroom, with an adjoining 2,000 sq ft exhibition space looking out onto the gardens and coastline. There will be space for industry-led presentations or hands-on workshops from our platinum sponsors during the breaks. The coffee breaks will be hosted in the exhibition hall, to provide regular opportunities for delegates to visit the exhibitor stands and talk to our industry partners. Both the welcome drinks event and the awards dinner will be held on site, affording delegates and vendors an environment to meet and socialize with ease after each day's program.

The venue is just minutes from the quaint seaside communities of La Jolla and Del Mar. It is close to Interstate 5 for easy access to downtown San Diego, San Diego International Airport and other local points of interest.

The City

La Jolla is a smart seaside area, known for its rugged coastline. Trails wind past pine trees and sandstone canyons in Torrey Pines State Natural Reserve, while the 2 courses at world-renowned Torrey Pines Golf Course sit atop sea cliffs. La Jolla Cove has sweeping ocean views, and the Shell Beach tide pools are home to anemones and crabs. Posh boutiques and waterfront restaurants dot walkable La Jolla Village.
