Description of Fellowship

The Nationwide Children's Hospital Pediatric IR training program offers exposure to a very broad range of pediatric interventions in a high volume setting. PIR attendings offer subspecialized expertise in complex vascular anomalies, complex venous and arterial interventions, GI/GU interventions, and musculoskeletal interventions. We benefit from outstanding referring services including active pediatric hematology/oncology, urology, surgery, and pulmonology. On completion of the training program, our fellows are able to operate independently at the highest levels of pediatric interventional radiology.

Fellowship Details

Pediatric IR Section Chief or Division Chief: Patrick Warren MD

Pediatric IR Fellowship Director: Leah Braswell MD

Fellowships Available:

- Pediatric Interventional Radiology Only
- Combined Pediatric Radiology and Pediatric Interventional Radiology

Durations Available:

- One year
- Greater than one year

Number of 1 year or greater Fellowships: 3

Start Date: July 1

Approximate Call Frequency: One weekday/week and one weekend/month

Elective Time offered during Fellowship: Elective time in adult interventional radiology at Ohio State University as well as dedicated research elective time is offered.

Number of Pediatric Fellows trained here in the last 5 years: 5

Does a combined fellowship result in eligibility for a CAQ (such as in IR or pediatric radiology), or other accreditation: PIR fellowship can be structured based on the needs of the trainee. For fellows without prior pediatric radiology fellowship training seeking CAQ eligibility, a 1 year training program is divided into 6 months of diagnostic training and 6 months of PIR training. For fellows already CAQ eligible for pediatric radiology CAQ, the entire year is dedicated to PIR, although moonlighting opportunities in diagnostic pediatric radiology can be supported if the trainee desires.

Prerequisite requirements:

- Radiology Residency
- Medical Licensure in your state, province, or region

Service Details

Number of pediatric IR attendings: 6

Number of adult IR attendings with direct teaching responsibility for the PIR fellows: 6

Number of neuroradiology or interventional neuroradiology attendings with direct teaching responsibility for the PIR fellows: 2

Approximate annual IR Pediatric case volume: Greater than 3000

Approximate annual case volume by subspecialty:

Vascular Access	> than 200 cases a year
Biopsy Drainage.....	> than 200 cases a year
Body Angiography & Intervention.....	Between 20 and 200 cases a year
Spine Interventions	Between 20 and 200 cases a year
Vascular Anomalies	> than 200 cases a year
Venous Interventions	> than 200 cases a year
Enteric access (G, GJ), Cecostomy	> than 200 cases a year
Locoregional tumor therapy	Between 5 and 20 cases a year
Musculoskeletal Interventions	> than 200 cases a year
Biliary Interventions.....	Between 20 and 200 cases a year
GU Interventions	Between 20 and 200 cases a year
Diagnostic Cerebral Angiograms	Between 20 and 200 cases a year
