**Pediatric Interventional Radiology**  
**Johns Hopkins All Children’s Hospital in St. Petersburg, Florida**

The Johns Hopkins All Children’s Hospital (JHACH) Department of Radiology in St. Petersburg, Florida is recruiting a fellowship trained pediatric interventional radiologist to join our team of 10 radiologists. JHACH provides the full spectrum of radiology procedures on children of all ages. The Department of Radiology performed 79,000 exams last year. The interventional radiology section performed 2,100 procedures and is separately staffed by three pediatric interventional radiologists who provide full-time IR coverage. We are seeking a team oriented candidate with a passion for quality care, commitment to serving our patients, families, and clinicians. This physician will perform a broad range of pediatric interventional procedures on a daily basis but a candidate with experience in vascular anomalies will be a valuable addition. The Johns Hopkins All Children’s Vascular Anomalies and Birthmarks Program offers state-of-the-art, individualized care to patients and we are the only health system on Florida’s west coast with an on-site multidisciplinary team. The ideal candidate will have the requisite skills to support and assist in the continual development of this program. Members of our team utilize state-of-the-art equipment in all modalities. The department operates 4 MRI scanners and two CT scanners including Siemens Force CT scanner allowing for the most cutting edge CT exams, including cardiac imaging.

Johns Hopkins All Children’s Hospital is 259-bed teaching hospital ranked by *US News & World Report* as a “Top 50 Children’s Hospital”. We provide expert pediatric care for infants, children, and teens in the community - and around the world - who are facing some of the most challenging medical problems. As of August 1st, we are a pediatric trauma center and are in the application process for Level 1 Pediatric General Surgery designation. With more than half of the 259 beds devoted to intensive care level services, JHACH is the regional pediatric referral center for Florida’s West Coast. Physicians and community hospitals count on JHACH to care for critically ill patients and perform complex surgical procedures. Opportunities for research are available if desired. Rotating radiology residents from University of South Florida are in the department daily allowing for educational opportunities. Qualified candidates may be eligible for an academic appointment at Johns Hopkins University School of Medicine (academic rank is open and commensurate with experience).

The Tampa-St. Petersburg area is a wonderful place to work and live, offering year-round sunshine, abundant cultural and recreational activities, sports venues, excellent schools and an affordable cost of living. Johns Hopkins All Children’s Hospital is centrally located to many of Florida’s amenities, only minutes from Tampa and the beautiful gulf beaches, two hours from Orlando and four hours from Miami.

To confidentially learn details, you may contact a member of our radiology team: Kevin Potthast, MD, Medical Director and Chairman, Division of Radiology at jpottha2@jhmi.edu. If you would like to confidentially discuss the opportunity, you may also reach Joe Bogan, Providence Healthcare Group at 817-424-1010 or by email at jbogan@provdoc.com.
