

## **Pediatric Interventional Radiology Physicians**

### **Sidra Medicine**

Sidra Medicine in Doha, Qatar is currently looking for highly qualified and dedicated physicians who want to make a lasting contribution to the nation of Qatar.

Sidra's Interventional Radiology Program will support all aspects of medical and surgical care for pediatric patients. Our multidisciplinary team encompasses the entire spectrum of relevant professions and provides cutting-edge, state-of-the-art imaging and interventional therapies, including monoplane and biplane angiography, interventional CT, and a triple-tandem hybrid OR/interventional MRI (iMRIs).

We are looking for physicians with dedicated training or significant experience in the following areas:

- Pediatric Interventional procedures
- Pediatric Neuro-interventional procedures
- Obstetric & gynecological interventional procedures (low volume)

Sidra is a world-class organization that provides ample opportunities for research, professional growth, and personal development. Consider joining our experienced team and help Sidra provide an exceptional service for the nation of Qatar and beyond while providing exceptional care to the patients and families we serve.

Informal Discussion can be arranged with clinical leader, Contact Unaib Javed directly +974 40037470 or via e-mail [ujaved@sidra.org](mailto:ujaved@sidra.org), additional information may be obtained on [www.sidra.org](http://www.sidra.org)
